OFFICE OF THE AUDITOR GENERAL

Audit of Accounts Payable Checks

August 2005

OFFICE OF THE AUDITOR GENERAL 2 WOODWARD AVE, ROOM 208 DETROIT, MICHIGAN 48226 PHONE 313.224.3101 FAX 313.224-4091

MEMORANDUM

DATE:

February 3, 2006

TO:

Roger Short, Interim Chief Financial Officer

FROM:

Sharon L. Gipson

Interim Auditor General

RE:

Audit of Accounts Payable Checks

C:

Honorable City Council Mayor Kwame M. Kilpatrick

Attached for your review is our report on the audit of Accounts Payable Checks. This report contains our audit purpose, scope and background, objectives, and methodology; our findings and recommendations; and the agency's response.

We would like to thank the Finance Department and Information Technology Services staff for the cooperation and assistance extended to us during this audit.

Copies of all the Office of the Auditor General reports can be found on our website at www.ci.detroit.mi.us/legislature/CharterAppointments/AuditorGeneral.

Audit of Accounts Payable Checks

VENDORS ISSUED MORE THAN 12 CHECKS	APPENDIX A						
VENDORS ISSUED CHECKS FOR LESS THAN \$10.00	APPENDIX B						
AGENCY RESPONSE	ATTACHMENT A						

AUDIT PURPOSE, SCOPE, OBJECTIVES, AND METHODOLOGY

Audit Purpose

The audit of accounts payable checks was performed under the Office of the Auditor General's (OAG) Charter mandate to audit financial transactions of all City agencies. The OAG initiated this audit to determine whether an excessive number of checks was being generated to pay City invoices.

Audit Scope

The scope of this audit was limited to a computer-assisted review of an electronic data file containing the City of Detroit's accounts payable checks issued in the 12-month period between April 1, 2004 and March 31, 2005. The computer-processed data file was sufficiently reliable to meet our audit objectives.

During the 12-month audit period, the Finance Department Accounts Payable Division issued 109,206 checks totaling nearly \$1.7 billion to 17,169 vendors. Two vendors, Annuity Interface and Jury Interface, record the details of checks issued to individuals for pension annuities and jury duty. These vendors were issued 2,358 and 6,520 checks respectively, and were excluded from our analysis.

Checks made	# of	Amount
Payable to:	<u>Checks</u>	(in millions)
Annuity Interface	2,358	\$ 131.1
Jury Interface	6,520	0.2
Other vendors	100,328	<u>1,568.1</u>
Total	109,206	\$ 1,699.4

Our audit was conducted in accordance with Government Auditing Standards issued by the Comptroller General of the United States, except for the completion of an external peer review of the Office of the Auditor General within the last three years.

Audit Objectives

The overall audit objectives were:

- 1) To identify vendors that received more than 12 checks in the 12-month period.
- 2) To identify vendors with more than one vendor master record.

Audit Methodology

To accomplish our audit objectives, we performed the following:

- Downloaded accounts payable check data for the 12-month period from April 1, 2004 to March 31, 2005 from the Detroit Resource Management System (DRMS), the City's financial system.
- Assessed the reliability of the data by performing a comparison of the downloaded file to a Supplier Payment History report for the same period.
- Utilized computer-assisted audit technique software to extract and analyze the data.
- Interviewed staff from the Finance Department Treasury and Accounts Payable Divisions.
- Reviewed selected vendor records for those vendors receiving checks within the audit period.

FINDINGS AND RECOMMENDATIONS

1. Decrease the Number of Checks Issued to Vendors

We stratified the 100,328 checks issued during the period April 1, 2004 to March 31, 2005 by the number of checks issued to each vendor and determined that 8.5% of the vendors received 55% of the checks written during the period.

- 735 vendors received between 13 and 24 checks during the 12-month audit period, averaging between 1 and 2 checks per month. The 12,114 checks these vendors received were 12% of the total number of checks issued.
- The remaining 716 vendors received between 25 and 902 checks during the 12-month audit period, averaging over 5 checks per month. The 43,034 checks these vendors received were 43% of the total number of checks issued. These vendors averaged more than 2 and as many as 75 checks per month.

Total

The distribution of vendors by the number of checks received is shown below.

Number of Checks Issued April 1, 2004 Through March 31, 2005	Average Number of Checks Issued Per Month	Number of Vendors	Total Number of Checks Issued	Checks, if a Maximum of 12 Checks Per Vendor Had Been Issued	Excess Number of Checks Issued
Less than 13	1	15,716	45,180	45,180	0
Between 13 and 24 Between 25 and 48 Between 49 and 96 Between 97 and 192 Between 193 and 288 Between 289 and 902	1 - 2 3 - 4 5 - 8 9 - 16 17 - 24 25 - 75	735 436 209 49 11	12,114 14,706 13,154 6,397 2,535 6,242	8,820 5,232 2,508 588 132 132	3,294 9,474 10,646 5,809 2,403 6,110
Total – Vendors Receiving More than 1 Check per Month		1,451	55,148	17,412	37,736
Total – All Vendors		17,167	100,328	62,592	37,736

All of the vendors that were issued more than 12 checks during the 12-month audit period are listed in Appendix A of this report.

The vendors that were issued an average of more than 24 checks per month are listed below:

Vendor Name	Total Number of Checks Issued	Dollar Amount
Circuit Court of Wayne County	902	\$ 177,708
Board of Water Commissioners	876	6,727,409
Xerox Corporation	863	2,134,167
Office Depot Inc.	765	913,556
Grainger	592	781,704
DTE Energy	470	7,623,553
Treasurer, City of Detroit	406	88,979
Absopure Water Co.	377	72,628
SBC Ameritech	344	9,725,268
Kirk's Automotive Inc.	335	1,356,780
Arrow Office Supply	312	229,688

As shown below, we identified 6,948 instances where individual vendors were issued multiple checks on the same day. There were 15 instances where individual vendors were issued between 30 and 100 checks on the same day; and 211 instances where individual vendors were issued between 10 and 29 checks on the same day.

Number of Checks Issued to an Individual Vendor on a Single Day	Number of Instances	Number of Checks Issued	Excess Checks Issued
Between 30 and 100	15	607	592
Between 10 and 29	211	3,125	2,914
Between 3 and 9	2,037	8,268	6,231
2	4,685	9,370	4,685
Total – More than 1 check issued on a single day	6,948	21,370	14,422

The vendors receiving 30 or more checks on one day are listed in the table below.

Vendor	Check Date	# of Checks Issued
Homecomings Financial Network	04/30/04	100
DTE Energy	07/29/04	56
Board of Water Commissioners	10/06/04	51
DTE Energy	07/14/04	50
Medve Group Inc & Colliers Int'l	04/15/04	36
LB Office Supplies & Furniture	04/05/04	34
Circuit Court of Wayne	05/29/04	33
Circuit Court of Wayne	08/27/04	33
Office Depot Inc	09/24/04	33
Xerox Corporation	09/17/04	31
Ameritech DN5	03/16/05	30
Canfield Equipment Service Inc	07/13/04	30
Circuit Court of Wayne	08/05/04	30
LB Office Supplies & Furniture	06/08/04	30
Xerox Corporation	07/08/04	30

The Accounts Payable Division issued 4,321 checks for amounts less than \$10.00. 3,300 of these checks were issued for employee mileage reimbursements. 27 of the checks were issued for amounts between \$0.01 and \$0.99. Appendix B lists vendors issued checks for less than \$10.00.

Good business practice limits the number of checks issued to vendors. Finance Directive #129, dated May 23, 1994, directs the Accounts Payable Division to explore the efficiencies of paying multiple invoices to a vendor with a single check, thus reducing checkwriting, processing and mailing expenses.

Departments request that a separate check be issued and held for their pickup. This results in multiple checks issued to the same vendor, often on the same day. Accounts Payable estimated that 60% to 70% of all checks are held for pick-up by the requesting department.

City policies directly impact the number of small checks that are issued.

- Mileage reimbursement requests must be submitted within 30 days of the end of the month, or they will not be honored.
- Imprest cash reimbursement requests must be submitted within 30 days of the month in which the expenditure occurred, no matter the amount of the expenditure.
- The Accounts Payable Division will issue checks for amounts owing that are greater than \$1.00.

The effect of issuing a high number of checks is increased direct and indirect costs. Internal auditors from the City of Orlando, Florida have estimated their direct and indirect costs to issue an accounts payable check to be \$18.42 per check. If Detroit has a similar cost structure, reducing the number of checks issued to a maximum of 12 per year to each vendor would equate to nearly \$700,000 in annual savings.

Recommendations

We recommend that the Accounts Payable Division comply with Finance Directive #129 by establishing procedures that will decrease the number of checks issued to vendors. The Accounts Payable Division should not honor departments' requests for separate checks unless the requesting department can justify a need. Accounts Payable should also review the City's policies that require checks be issued for small amounts. If the total amount owed a vendor is less than the cost to issue a check, then the payment should be made quarterly, not on demand.

¹ The Accounts Payable Division estimates that it costs the City of Detroit between \$20 and \$40 to issue an accounts payable check.

2. Eliminate Multiple Vendor Records for the Same Vendor

Our limited review of the vendor master file identified 28 vendors that appear to have duplicate vendor master records in the Accounts Payable system and 3 vendors that appear to have 3 vendor records. Many of the vendor master records do not contain a taxpayer identification number (TIN), making positive identification of duplicate vendor master records impossible. Where TINs were missing, vendor addresses were also compared to identify suspected duplicate master records. The vendor master records identified as duplicates are listed below.

In addition, we found multiple vendor master records for the City's Water Department and Treasurer, and multiple vendor master records for individual City departments.

Accounts payable best practices recommend maintaining a vendor master file with only one vendor record assigned to each unique taxpayer identification number and incorporating a thorough process of reviewing supplier application forms for authenticity and duplicity before the supplier is set up as a new vendor in the purchasing and accounts payable systems.

A representative of the Accounts Payable Division acknowledged that the vendor master file contained many duplicate records and that it needed to be cleaned up. The representative stated that many of the duplicate records are due to electronic interface files for medical invoices that do not contain standard vendor name formats. Accounts Payable would create a new vendor record in order to pay the invoice. Furthermore, when the current accounts payable system was implemented, various Purchasing and Accounts Payable Division staff were allowed to input new vendor names. Without tight control over the master file, many duplicate vendors were entered with slight deviations between the names.

Maintaining multiple vendor master records eliminates management's ability to easily obtain purchase and payment histories for an individual vendor; negates preventive controls, such as checks for duplicate invoice numbers, that are built into electronic financial systems; increases the potential for fraud; and decreases opportunities for more efficient purchasing, processing and paying.

Recommendations

We recommend that the Finance Department implement a thorough process to verify that supplier applications are legitimate requests for new vendor accounts before the supplier is added for use by the Purchasing system. The process should require a check of the telephone number, taxpayer identification number, and the address listed on the supplier application against the vendor master file and against the employee file to identify duplicate or fraudulent vendors. No new vendor should be entered into the system without a taxpayer identification number.

We recommend that the department request and maintain signed W-9 forms for each active vendor record.

We recommend that the Finance Department implement an ongoing process for managing its vendor file. Management should incorporate the identification and consolidation of duplicate vendor records for companies and individuals with the same taxpayer identification number into its vendor file management process.

TO: Sharon L. Gipson, Interim Auditor General

FROM: Claud Dent, Finance Accounts Payable Manager

RE: Audit of Accounts Payable Checks

FINDING #1

RECOMMENDATION:

That the Accounts Payable Division complies with Finance Directive #129 by establishing procedures that will decrease the number of checks issued to vendors.

RESPONSE:

The Accounts Payable Division has researched the process of consolidating vendor invoices to have the vendors send one invoice per division per month. And in some cases where it is possible, we want the vendor to send one invoice per department per month. This process will reduce the number checks issued each month to our various vendors. We have had meetings with one of our vendors who has participated in a similar program with the New York Port Authority, with great success. They have agreed to work with the Accounts Payable division testing and implementing a pilot program.

We have had discussions with SBC concerning sending the city electronic bills, which could be distributed and processed more economically than the paper invoices currently being received.

We have held meetings with the regional ACH authority and Comerica Bank to institute the process of electronically sending invoice payments directly to vendors' bank accounts. This will reduce our check writing numbers by approximately 85%-90%. This program has been tested internally and with the bank with 100% success. The final phase before implementation will be to set up sufficient security surrounding all phases of the process.

The Accounts Payable Division has reduced the check writing process to twice a week. This has drastically reduced the number of checks being processed to the various vendors. During the period under review checks were being processed every day, which contributed to the large number of checks various vendors were receiving.

FINDING #1

RECOMMENDATION:

Accounts Payable Division should not honor department's requests for separate checks unless the requesting department can justify a need.

RESPONSE:

Departments are asking for separate checks as a result of:

- 1. Vendors not applying multiple payments to the proper individual accounts.
- 2. Vendors with multiple addresses
- 3. Incorrect vendor addresses
- 4. Vendors uncomfortable with the U S Postal services

The Finance Department has conducted an extensive cleaning up of the supplier database over the past year, and in particular, the past several months. This involved merging vendors with multiple names, tax ID's, and on a yearly basis, we are purging one time vendors from the supplier database.

The Accounts Payable Division sent out (during summer of 2005) to all city vendors a questionnaire and a W-9 form to be completed and returned. This was to acquire the appropriate and correct tax information that would be necessary in the preparation for the city to begin wiring vendor payments directly into their bank accounts. This process would also help eliminate a lot of miscommunication between the city and vendor community.

However small the check payment being issued, we have to be cognizant of the "Prompt Payment Ordinance" guidelines and issues. Internal checks could be considered for quarterly payments, but, vendor payments will have to adhere to the "Prompt Payment Ordinance."

FINDING #2

RECOMMENDATION:

Finance Department implement a thorough process to verify that supplier applications are legitimate requests for new vendor accounts.

RESPONSE:

The Finance Department instituted a policy during the 2000/2001 fiscal year that only the Purchasing Division would have access and control of the supplier database. This helps eliminate multiple entries from various locations. Finance instituted a policy during 2005 that a signed W-9 form be completed and submitted with every supplier application that is turned in. The W-9 forms are kept on file in the Purchasing Division. The Accounts Payable Division runs a report called the "Tax Information Verification Letter." This report generates a letter and a W-9 form for any vendor that does not have the appropriate tax information in Oracle. The letter is sent out to the respective vendors per the report for verification and Completion of any required information.

Cc: Roger Short, Interim Chief Financial Officer Matt Grady, Deputy Finance Director Mike Bridges, Chief Accounting Officer Betty, McGee, Administrative Assistant III
